## HOLLAND-STONE™

# HOLLAND-STONE™

Holland-Stone™ has the renowned durability of interlocking concrete pavers that offers the old world charm of a simple brick shape. With its astonishingly simple design Holland-Stone™ is capable of meeting demands of architects and designers for a beautiful, durable textured paving surface. The 4 X 8 shape is timeless and whether it is an accent piece or a boarder in your design, the Holland-Stone™ will never go out of style.

This rectangular stone can be applied in a number of fascinating patters (like the popular Herringbone pattern) to produce warm, luxurious textures. Mix these patterns with any of the available standard colors and you've got the potential for an architectural effect only your imagination can limit.

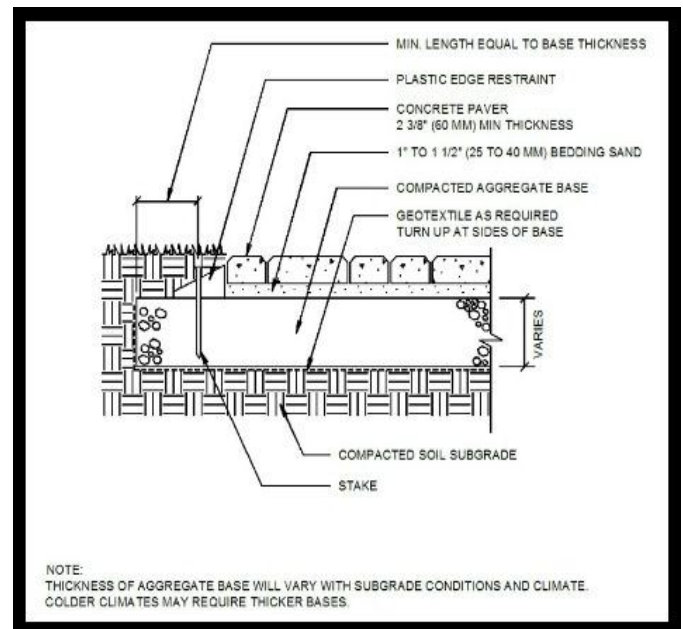

## Composition & Manufacture:

Holland-Stone™ is manufactured from a “no slump” concrete mix. Utilizing extreme pressure and high frequency vibrations, Holland-Stone™ has a compressive strength greater than 8,000 psi, a water absorption maximum of 5% and will meet or exceed ASTM C-936 82 and freeze-thaw testing per section 8 of ASTM C-67-73.
